

Getting Involved

in the Innovative Health Initiative

Hugh Lavery
26.02.2022 • Introducing the Innovative Health Initiative: Europe's new partnership for health

Getting involved – Overview

- What is IHI?
 - Strategic Research and Innovation Agenda
- Help shape the agenda
 - The Science and Innovation Panel
 - Patient Pool
 - Contributing Partners
- Apply for funding
 - Third party ideas
- Keep up to date

WHAT IS IHI?

IHI IS EUROPE'S NEW PARTNERSHIP FOR HEALTH

IHI is a **collaboration** between the EU and the biopharmaceutical, biotechnology, digital health and medical technology sectors, as well as academics, patients, regulators and other healthcare professionals.

FROM IMI TO IHI

IHI will build on the extensive experience of **IMI's 14 years and almost 200 projects** to build an interdisciplinary, sustainable, patient-centric health research partnership to help transform patients' lives.

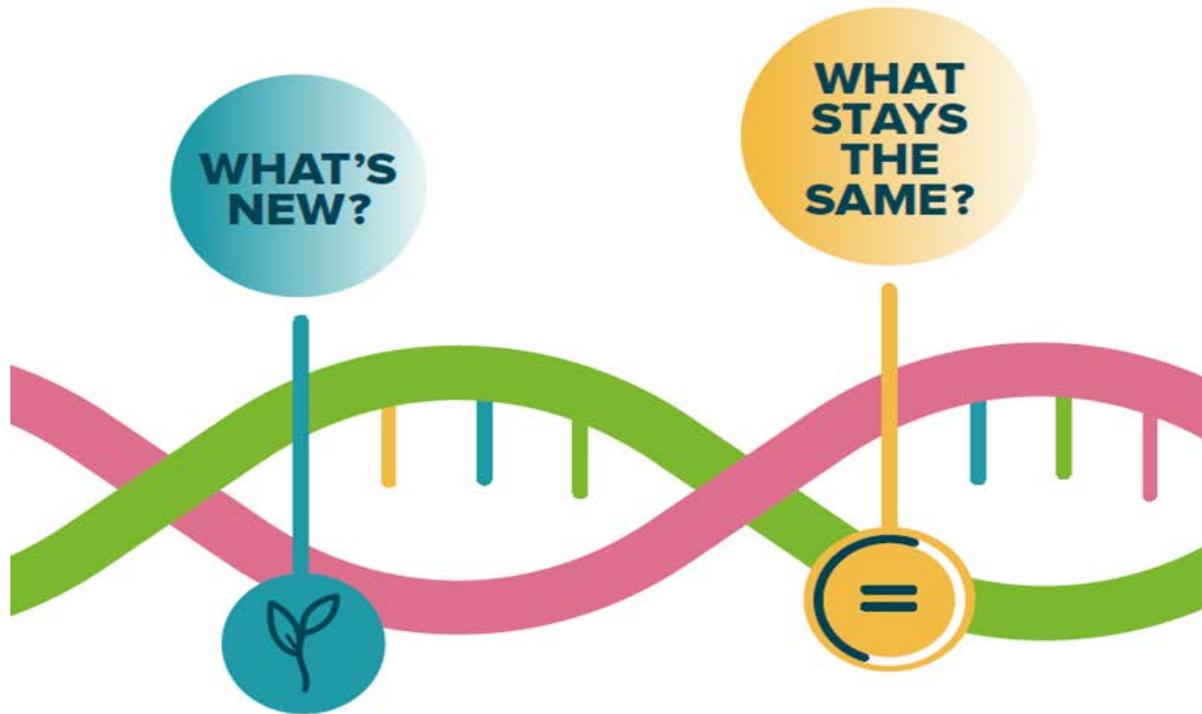

IHI PARTNERS

The industry members that make up the new partnership are:

- COCIR
- EFPIA
- EuropaBio
- MedTech Europe
- Vaccines Europe

The public member in the partnership is the European Union, represented by the **European Commission**

- The way we're governed will change.
- The scope of the partnership is broader than IMI as it will cover the **entire continuum of care**.
- There will be new, specific objectives that align with the EU's latest health policy strategies.

- **Funding comes equally** from the public and industry partners.
- Calls for proposals will be **open and competitive**.
- Projects started under IMI will be managed by IHI.

- New Strategic Research and Innovation Agenda
- The Science and Innovation Panel
- One and two stage calls

- Strategic Research and Innovation Agenda

IHI SRIA – background

Focus

- **Cross-sectoral approaches** to facilitate creation of new products and services to **prevent, intercept, diagnose, treat and manage diseases** and foster recovery more efficiently.

Goal

- Lay foundations for development of **safer and more effective health care products or solutions** that respond to **unmet public health needs** and that can be implemented into healthcare systems.

IHI's general objectives

IHI's objectives are set out in the legislation creating IHI. Our general objectives are to:

- turn health research and innovation into real benefits for patients and society;
- deliver safe, effective health innovations that cover the entire spectrum of care – from prevention to diagnosis and treatment – particularly in areas where there is an unmet public health need;
- make Europe's health industries globally competitive.

IHI's specific objectives

Described in more detail in the Strategic Research and Innovation Agenda.

- Improve our **understanding of the factors that affect our health** and the development and treatment of certain diseases.
- **Integrate fragmented health research and innovation efforts** by bringing together health industry sectors and other stakeholders. This will enable the development of tools, data, platforms, technologies and processes that will in turn facilitate the prevention, diagnosis, treatment and management of diseases, especially in areas where there is an unmet public health need.
- Demonstrate the **feasibility of integrated healthcare solutions** that draw on various technologies from different sectors and address the needs of the people who will use them, such as patients and healthcare professionals.
- Make better use of **opportunities to gather health data** and use it in research and care, all while respecting relevant privacy legislation.
- Develop ways of **assessing the value of innovative, integrated health care** solutions to patients, carers, healthcare professionals and organisations, and other stakeholders.

SRRIA - IHI contributes to EU policies

On the policy front, IHI's projects are expected to contribute to EU policies, most notably:

- Horizon Europe (of which IHI is a part)
- Europe's Beating Cancer Plan
- The new Industrial Strategy for Europe
- The Pharmaceutical Strategy for Europe
- The European Health Data Space

IHI contributes to the UN Sustainable Development Goal 3 on ensuring healthy lives and promoting well-being for all at all ages.

IHI JU Budget

IHI will launch calls for proposals and select projects (actions) that contribute to reaching one or more of the objectives outlined in the SRIA.

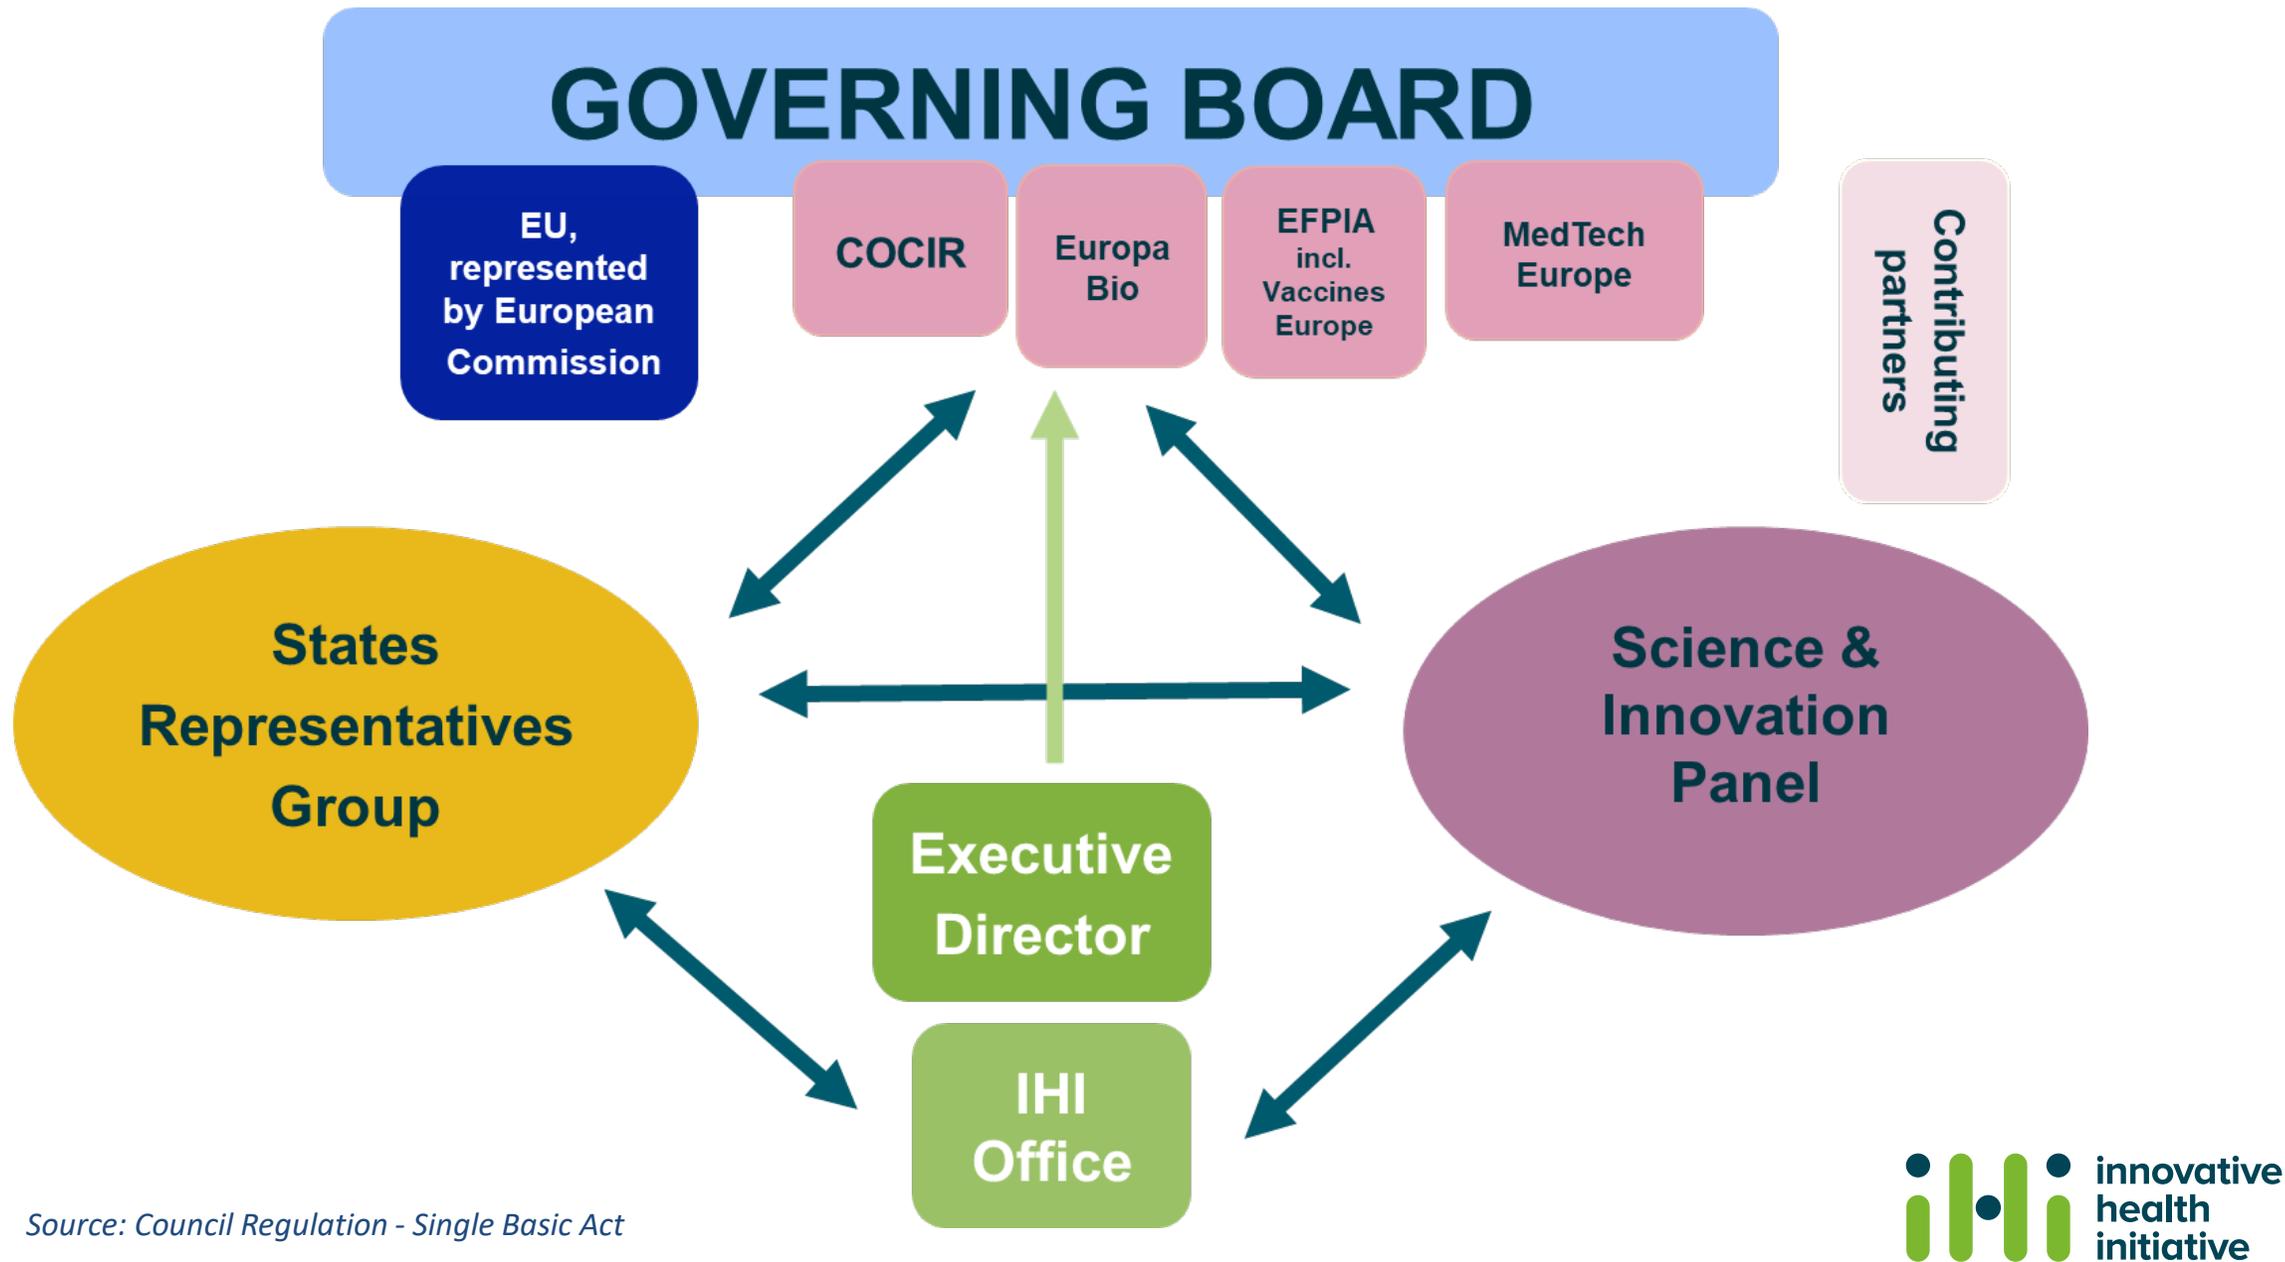

IHI will work to reach its objectives with the following resources:

- up to EUR **1.2 billion** provided by the European Union (Horizon Europe Health Cluster),
- at least EUR **1.0 billion** provided by the member industry associations,
- up to EUR **200 million** from Contributing Partners.

IHI Synergies

- IHI builds on lessons learned from the Innovative Medicines Initiative
- IHI is not meant to be a direct continuation of IMI. Rather, IHI will build on IMI's results and ongoing initiatives within a new platform with a broader scope, more partners and a wider stakeholder base.
- IHI will seek synergies with other Horizon Europe activities, including other European partnerships, as well as other EU and national programmes.

Source: Council Regulation - Single Basic Act

- Science and Innovation Panel

Background

IHI requires **multi-stakeholder input** to fulfil its objectives and ensure it addresses **unmet public health needs**:

- **Scientific & technological input** relevant to the scope of IHI as in the SRIA.
- **Input from other stakeholders in the healthcare system** to ensure that its strategic design and activities address the needs of the health care systems and of the patients

The stakeholder input will be provided, amongst others, by a **Science and Innovation Panel (SIP)**.

The SIP role

The SIP will provide science-based advice to the Governing Board, on scientific and technological matters such as:

- IHI's draft work programmes, and in particular the draft call topics;
- updates to the SRIA;
- the planning of additional activities;
- the set-up of advisory groups focused on specific scientific priorities;
- synergies with other Horizon Europe activities, including other European partnerships, other EU and national programmes.

SIP composition

**Two Members
European Commission**

**Four Members
IHI Industry Partners**

**Two Members
States Representatives Group(SRG)**

Representatives
appointed by
own body

Chair
**Four Members
Scientific Community**

**(up to) six Members
Stakeholders involved in health care**

Representatives
appointed via
EoI Call

Experience in at least one of the following categories:
Patients; Health care professionals; Health care providers; Regulatory bodies; Health Technology Assessment bodies; Health care payers

16 ad-hoc panelists may be invited to discuss specific subjects at given meetings

SIP membership

The **call for Expressions of Interest (EoI)** is now open for people who want to represent the scientific or healthcare communities on the SIP.

If you are interested please go on the IHI website to find all information, the application form and list of documents to be included in a submission:

ihi.europa.eu/about-ihi/who-we-are/science-and-innovation-panel

The deadline for submission of applications is:

21 February 2022, 23:59 CET

Patient Pool

Identified patients/ patient informal carers interested in participating in IMI activities both at strategic and operational levels.

Drawing from this Patient Expert Pool, the Programme Office invited expert patients/patient informal carers with the most suitable profile to perform a variety of roles and tasks.

Later in the year we will re-open the patient pool to seek others who can contribute to shaping the IHI activities and improve the quality of IHI projects from a patient perspective through early and meaningful engagement.

Get involved - Contributing partners

- The contributing partner category was created to open IHI to a wide range of health stakeholders who may want to **invest in IHI without becoming full members**.
- Contributing partners invest their **own resources or cash in a specific IHI project(s)**. Their contributions work in a similar way to those from industry partners.
- Under IMI over 30 associated partners from around the world including **philanthropic organisations, patient groups, and companies**.
- Any international organisation or legal entity can apply to become an IHI contributing partner.
- Those interested in becoming a contributing partner will require endorsement by the IHI Governing Board.

Interested? Contact the IHI office.

- Call and Evaluation Planning

Potential future topics

- IHI has published on its new website, indicative information on ideas that may be included in the first call for proposals.
- This first call should be launched **by the mid-June 2022**

Call 1 – Ideas - Single-stage procedure

- 1 Innovative patient-facing care pathways for patients with neurodegenerative diseases and comorbidities
- 2 Next generation imaging and image-guided diagnosis and therapy for cancer
- 3 Precision oncology: Innovative patient-centric, multi-modal therapies against cancer
- 4 Access and Integration of heterogeneous health data for improved health care in diseases areas of high unmet public health need

Call 2 – Ideas - Two-stage procedure

1

New tools for prediction, prevention and monitoring of cardio-metabolic diseases including secondary manifestations to enable timely intervention

2

Strengthening EU clinical development excellence and innovation attractiveness: Harmonised methodology to promote the uptake of early feasibility studies (EFS)

Brokerage events and information days

- Previous experience has shown that building a consortium to apply to an IHI call will probably be one of the bigger challenges that applicants face.
- Applicants with established networks have an advantage when it comes to building consortia.
- The need to broaden participation from a wider range of stakeholders will also be important.
- While IHI office has to remain impartial and cannot support the formation of a particular consortium, we will organise brokerage events and info-days to facilitate the networking and building of consortia.
- Keep informed about future events by signing up to our [IHI Newsletter](#).

Get Involved - Third party ideas

- At IHI, many ideas for call topics will come from our partners (the industry members and the European Commission) and from contributing partners. However, we also welcome ideas from the wider health and research community.
- All ideas will have to demonstrate how they would help IHI to achieve its goals; how they are aligned with the IHI SRIA; and why they need a cross-sectoral public-private partnership. Ideas will be assessed by the IHI Programme Office and governance bodies.
- We are working on a platform and procedures that will make it easy for people to submit call topic ideas.
- Once available, information will be placed on our website.

Getting involved in IHI

At programme/strategic level

- Join one of the industry trade associations who are IHI founding members (COCIR, EFPIA, EuropaBio, MedTech Europe, Vaccines Europe)
- Apply as an IHI contributing partner (similar to the status of IMI2 associated partner) ihi.europa.eu/shape-our-future-research/become-contributing-partner

Getting involved in IHI

- Apply to the Science and Innovation Panel:

ihi.europa.eu/about-ihi/who-we-are/science-and-innovation-panel

- Become an evaluation and review expert:

ec.europa.eu/info/funding-tenders/opportunities/portal/screen/work-as-an-expert

- Be part of the Patient Pool:

ihi.europa.eu/projects-results/health-spotlights/impact-patients-research

- Propose new ideas: ihi.europa.eu/shape-our-future-research/propose-ideas

Getting involved in IHI

- Apply to IHI calls:
 - IHI website: Future opportunities and Open calls
ihi.europa.eu/apply-funding/future-opportunities
ihi.europa.eu/apply-funding/open-calls
 - Funding & tender opportunities Portal:
ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home
- Participate in the brokerage events & info-days organised at Call launch
