

## IMI Impact on SMEs | 29 March 2022

### Speaker's Bio

**Mathieu Galtier, PhD**

**Chief Product Officer at Owkin**

After studies in mathematics and computer science, Mathieu completed a PhD in machine learning applied to neuroscience at Inria and ENS. Later he worked as the research director in the neurotech startup Dreem designing and testing various algorithms to measure and improve sleep. In 2018, he joined Owkin with a focus on building the Federated Learning platform [Owkin Connect](#)

He is the initiator and coordinator of the IMI Melloddy project, which gathers 10 pharmaceutical companies to perform collaborative machine learning in a privacy preserving framework.
