

# Saila Rinne

**Alternate Member of the IHI JU Governing Board**

**Head of Unit “Artificial Intelligence in Health and Life Sciences” of the Artificial Intelligence Office at the Directorate-General for Communications Networks, Content and Technology of the European Commission**

Saila Rinne is the Head of Unit “Artificial Intelligence in Health and Life Sciences”. The unit is part of the AI Office of the Directorate-General for Communications Networks, Content and Technology (DG CONNECT) of the European Commission.

Her team deals with EU policies and investments that foster innovative digital technologies and capacities in healthcare and life sciences. These include genomics and medical imaging data infrastructures, virtual human twins and Artificial Intelligence solutions for prevention, diagnostics and care.

She has been working for the European Commission since 1997. Her educational background is in languages and translation, and she started her career in the Commission as a translator and terminologist. Before joining her current unit in 2019, she worked in the data policy and innovation unit of DG CONNECT.
