

Joanna Wills

Member of the IHI JU Science & Innovation Panel

Co-Chair Research & Innovation Focus Group

COCIR

Joanna is the Co-Chair of the Research & Innovation Focus Group at COCIR. Joanna has held this position since January 2015. The Research & Innovation Focus Group within COCIR engages Industry representatives to coordinate all COCIR activities to support a vibrant ecosystem for healthcare research, development & innovation in the European Union.

Joanna has over 16 years of experience in the medical imaging industry. Joanna joined GE Healthcare in 2005 into the Commercial Leadership Program and then transitioned to an MR Product Specialist for Canada. She moved to the UK in 2008 to support the UK organisation as an MR Product Specialist. In 2013 Joanna transitioned to the Global Research Organization as a Regional Research Manager, responsible for the end-to-end implementation of the collaboration activities. Joanna has supported collaborations with Research Partners across the UK, BeNeLux and the Nordics.

Joanna holds a Bachelor of Mechanical Engineering and Management degree from McMaster University, Hamilton, Canada. Joanna lives in London with her partner and two children.
