

# Patrícia Calado

**Member of the IHI JU  
States Representatives Group**

**Member of the Board  
AICIB – Agency for Clinical Research  
and Biomedical Innovation**

Patrícia Calado is a Member of the Board at the Portuguese Agency for Clinical Research and Biomedical Innovation (AICIB). She is responsible for the international relations and funding programmes and she coordinates the team of National Contact Points (NCP) and Delegates to the area of Health of the European Union Research and Innovation Framework Programme (currently Horizon Europe).

Patrícia is national Delegate and NCP for Health since 2015, promoting Portuguese participation, giving specialist advice, taking part in strategic planning and ensuring links to nationally funded activities. She is also the Portuguese representative to several health research programmes and initiatives at EU-level. She integrates the national committee tasked with the definition of the roadmap for a national strategy for Genomic Medicine.

Patrícia has a PhD in Biomedical Sciences from the Faculty of Medical Sciences of the University of Lisbon and a degree in Biology from the Faculty of Sciences and Technology of the University of Coimbra.
